

God Created it, I Photograph it and show it to People Preview

*GOD CREATED IT, I PHOTOGRAPH
IT AND SHOW IT TO PEOPLE*

A photograph of a sunset over the ocean. The sun is a bright yellow orb in the center of the sky, surrounded by wispy, golden clouds. The sun's light reflects on the water, creating a shimmering path that leads to the shore. The sky transitions from a deep orange near the horizon to a darker, greyish-blue at the top. The water is dark with small waves, and the beach is visible at the bottom edge.

*The Gift - "God gives us one
sunrise and one sunset a day,
and our days are limited. We
should strive to see each as they are
as different as each day."*

David George 1976

Mandarin Duck

Moon rise at sunset watched by an osprey. How cool is that?

Great Blue Heron hunting.

Someone used to sit here. Honeymoon Island State Park, Dunedin, Florida

Monument Valley, Arizona
